

IOANNI ANGELO BRASCHIO

PATRICIO CAE SENATI AERARII PONTIFIC. PRAEFECTO INGENIO DOCTRINA INTEGRITATE PRVDENTIA SPECTATISSIMO OB SYMMVM EIVS IN REM ANTIQVARIAM STVDIVM ET EGREGIA ERGA SE MERITA IOSEPH ANTONIVS MONALDINIVS VETERIS LATII MONVMENTA PATRONO OPTIMO L.L.D.D

ERUDITO LECTORI

VENANTIUS MONALDINIUS.

Eteris Latii antiquitates, quas majorum incuria dispersas; atque temporis calamitate confumptas in unum quasi corpus collegerat Rodulphinus Venutus Accademiæ Cortonens, & Londinensis Socius, novo auctæ volumine, hodie iterum eduntur in lucem; non tam ut ratio eximii operis haberetur, quam ut satisfieret eruditis.

Capi id ego oneris, & negotii perlibenter; hasque tabulas areo viriculo insculptas in duo volumina congestas, atque hinc inde auctas, in octo classes distinctas divulgare constitui. Harum sane tres in primo volumine continentur: primo scilicet Tyburtinæ antiquitates, deinde Tusculanæ, postmodum Setinæ. Volumen autem alterum reliquas quinque classes amplectitur. Principio Laurentinas, atque Oftienses antiquitates: postea Veliternas, & Coranas: tertio Lanuvinas, & Ardeatinas: quarto Aricinas, & Albanas: postremo Antiatinas, & Norbanas. Equidem in hoc opere edendo unam me publicæ utilitatis rationem habuisse profiteor. Quod an sim assecutus Doctorum sit judicium. Feci sane quantum docti homines flagitabant, vel plus etiam; quippe qui postremas has quinque classes adjeci, quas animadverti dignas explicatu. In his autem explanandis universa collecta sunt monumenta, quæ ad rem nostram facere videbantur; rejectis plane opinionibus, quæ studio partium excogitatæ circumferuntur; iis vero acceptis, atque probatis, de quibus certior eruditorum sententia, stabiliorque permaneret.

Hæc in antecessium monenda duxi, Erudite Lector, ut laborem hunc nostrum, qualis tandem cumque sit æqui facias bonique. Vale, & nostris studiis, si nos amas, fave.
