

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

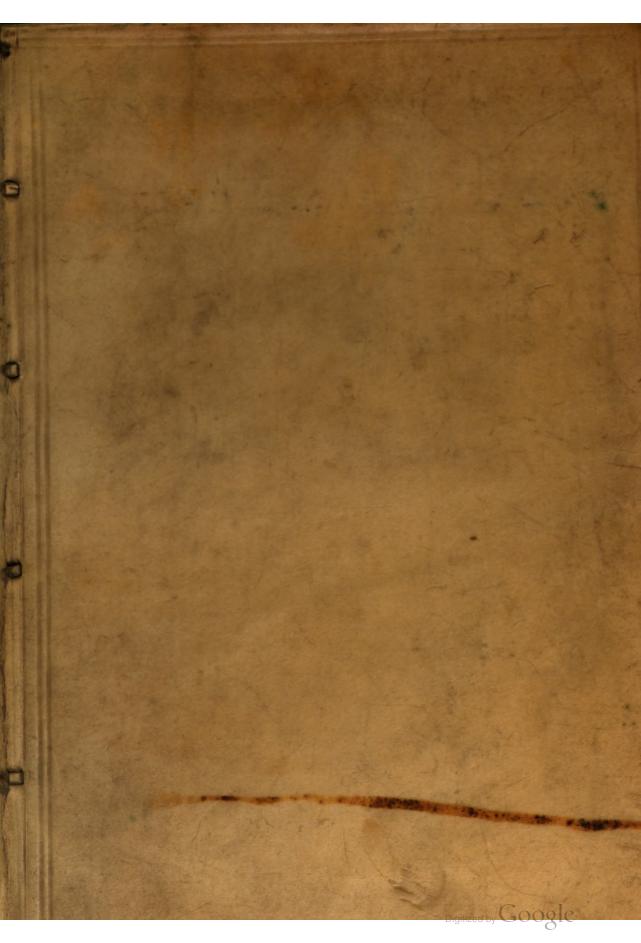

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

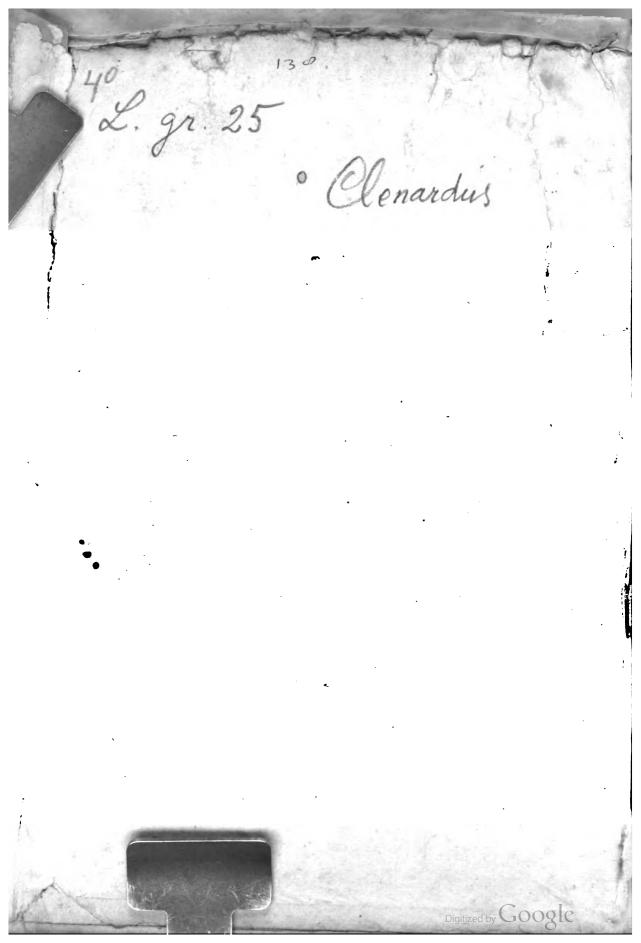

We also ask that you:

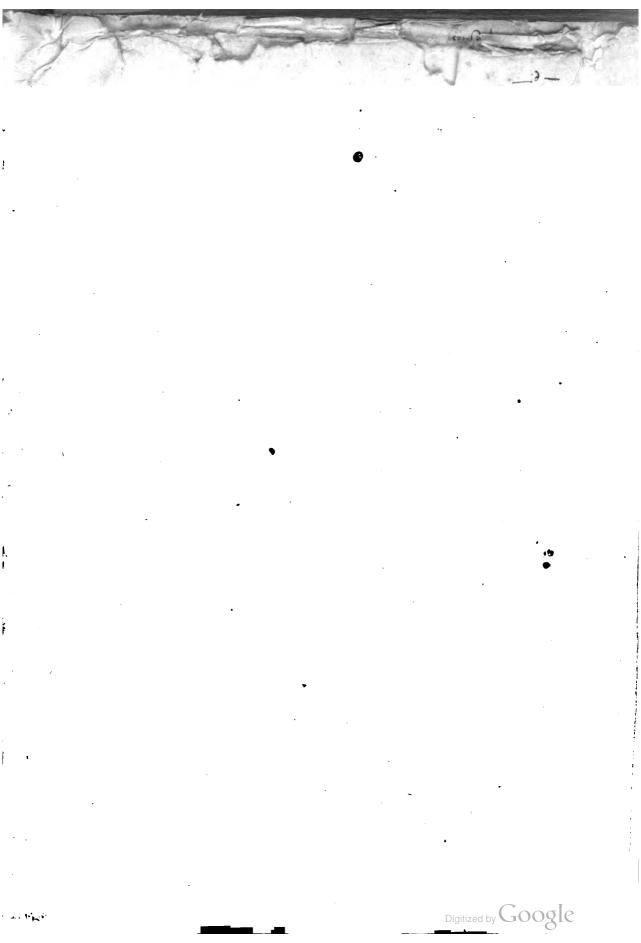

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + Keep it legal Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

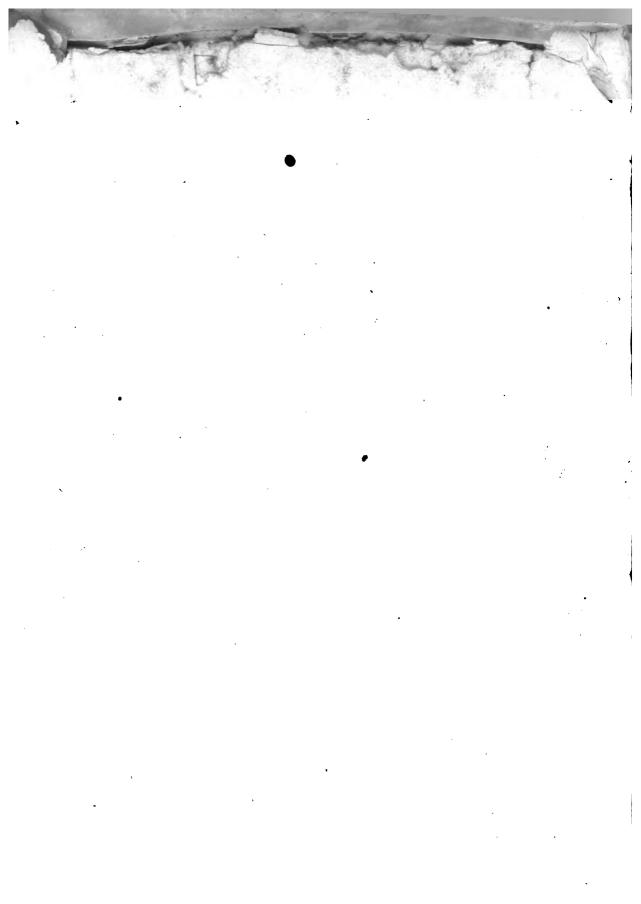

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. CLENARDVS FRANCISCO HOVERIO, LV-DI LITERARII MODERATORI apud Mechlinienfes, S.

V M ante annos aliquot discipulis meis, quos priuatim docendos susceperam, Grecas literas tradere vellem, congessi in eam linguam breues admodum Institutiones, vt rudimentoru candidatis instar enchiridii fo-

rent. Id opusculum anno superiore prælo committere ftudui, partim vt auditoribus noftris expeditior via fterneretur, partim vt defiderio tuo fatisfacerem, cui neceffitudinis nomine plurimum debcrem. Verüm nec commoditas in præsentia dabatur typographi, & orium alioqui deerat, quantum lambendusille partus requireret. Multis itaque victis, tandem Hippomenes mala aurea, que à Venere acceperat, ante pedes preuettentis Atalante fingulatim proficiens, cam malis colligendis detentam superauit, ac postea in vxorem duxit. Cùm enim nuper Bruxellæ de literis ageremus, operæprecium. tium futurum credebas, fi rudimentariis istis tyronibus scriptor quispiam Græcus ita legendus proponeretur, vt finguli verfus verborum thematis infignirentur. In illis enim timandis mifere plerosque angi, quibus hac ratione scrupuli omnes eximi possent. Ibi me illico minùs iam propositi pœnitere cœpit, sed quasi oraculi authoritate permotus, inchoatum alioqui opus absoluere statui, eodem fermè filo, quod tua prudentia demonstrasti. Mitto itaque istuc Meditationes Græcanicas, easque sub nominis tui auspiciis edites , vt quisquis inde fructus ad studiosam inuentutem manauerit, eum totum propensissima tua voluntati acceptum ferat, Deumque precetur, vt quod præterea de iuuandis bonarum artium studiis animo concepisti, felicem sorriatur exitum. Mihi cette pro effufilimo isto in literatos homines amore, augurari libet, & ominari licet, 'orbem aliquando fibi gratulaturum de præclaris Iacobi Cantæmeritis. Bene vale vir integerrime, & Campegiam familiam literarum gloria, quod ftrenuè facis, illuftrare perge. Lonanii, Anno M D XXXI. Calend. Iuliis.

IN MEDITATION-ES GRA-CANICAS PRÆFATIO.

RAMMATICORVMPT#cepta, quz difeendis lingais deftinata funt, ita demum vtilitatem adferunt, f & memoria fideli conferuentur, & iugi meditatione, adhibito iudicio, tanquam tenouentur. Qua quidem in re tantam est momenti, vt hîc cos peccare potifimum credam, quicunque stadia linguarum infeliciter auspicati sunt. Videas plerosque annes aliquot in quibusnis passim obuersari auditoriis, noctes diesque Grammaticos euoluere, professiorum dictara religiosissime describere: & breuiter omnem (quod

dici folet) mouere lapidem vt artis quam sectantur omnes canones intelligant, cum interim tot confumptis laboribus, ne id quidem fint affecuti, vt vel nominum teneant declinationes, vel verborum coniugationes. Víque adeò quofdam transuersos agitat inconsulta illa discendi libido, nouorum semper & incognitorum auiditate follicita. Itaque non immerito graues fæpe viti, Pauline more, illud iftis occinere folent : Semper diftentes, & nunquam ad fcientiam veritatis permenientes. Indignum enim arbitrantur, pretiofi temporis magno dif pendio linguam aut Græcam aut Hebræam affectare, cum tot flut alioquiartes egregiz, & mortalium vilbus perquam necessariz , in quibus summa cum laude versari possis. Neque tamen stultorum mores plus valere debent, quâm prudentum industria. Quin potius errantes in viam reducere conuenit, & graffantilatius malo presentaneum remedium adferre. Quapropter iam nuper Institutionibus in linguam Græcam editis, vbi quicquid eo pertineret, bre-uiter præcepi, operæpretium me facturum este credidi, si discipulorum insirmitati,& temeratiz illorum fedulitati, curam confiliumque pro vizili parte przberem, qui furfum ac deorfum citra delectum variislectitandis auferuntur mulsarum guidem horarum iactura, fed fructu exiguo Atque animum induxi.vo libellu n aliquem rudi Minerua conferiberem, vbi Græcarum literarum candidaris, tanquam vocem præceptoris viuam imitarer : vt haberent qui iam tudimenta percepiffent, quid fequi, quid fugere deberent. Delecta fiquidem epiftola Diui BASILII, nihil intactum reliqui quod ad istas minutias pertineret; quz primo discenda effent, quz contra in prziens omittenda & in posterum feponenda, quàm potui fideliffime commonstrani. Neque ab hoc instituto duxi alieniuseffe, verbulis fingulis anxia quadam & barbara superstitione suum addere interpretamentum, nihil veritus ne in calumniam raperetur, quod paruulis & balbutientibus iple quoque me balbum præstitillem. Subdidi tamen fuam vnicuique sententiz verfionem Latinam, vt eam edidit Budzus : partim ne quis nostrismodo conspectis, ineptam & illatinam interpretationem, vt zuum eft, irrideret : partim vt collatis inter fele linguis, propria vtriufque phrafis agnosceretur. Placent aliis alia, mihi hæc vila eft epiftola mirum in modum idonea quæ per omnes (vi ita dicam) fyllabas exacté & diligenter excuteretur; propterea quod præter elegantifimam dictionem, & dignam viro grani venustatem, optimis monitis Christianos mores componit, fine quibus perniciofum est quicquid vsquam literarum ediscitur. Proinde cui in animo sedet noftro confilio vii, vbi fummam Grammatices compendio paruo fuerit affecutus, nominum verborumque inflexionibus, quantum lat erit, degultatis, statim has legat Meditationes, neque aliò le conuertat priusquam totam epistolam pertra-Gauerit, & penficulando vestigandoq; fic locis omnibus rationem à le iple postulauetit, vt citra moram quicquid occurrerit, diluere possit : nihil inde proferatur vel minimi momenti, quod non ad fuum thema tanquam ad originem referre queat. Nam eiusmodi exercitatio vnum aliquem in libellum conferenda est, ne perpetuò ad candé reuoluare mo'estia. Sed iam, exposita nostri propositi ratione, Balilium iplum loquente audiamus, cuius est epistola ad hune modum inferipra;
